

2010 MATERIAL HANDLING MANAGEMENT EDITORIAL CALENDAR

	Features	Powered Vehicles	Transport Packaging	Automation	Workforce	Facilities	Technology	eVents: Webinars	Bonus Distribution
January Contributed Edit Deadline*: 12/11 Ad Deadline: 12/15	Regulatory Update	Lift Truck Safety	Track & Trace	Overhead Handling	5S	Flooring	Simulation/Modeling		
February Contributed Edit Deadline*: 1/11 Ad Deadline: 1/15	Green Material Handling	Alternative Power & Fuel Cells	Green Packaging	Retrofits	Third-Party HR	Green Buildings	Industrial Computers		
March Contributed Edit Deadline*: 2/11 Ad Deadline: 2/16	Salary Survey	Lift Truck Tires & Wheels	Dunnage	Conveyors	Workers' Comp	Security	Warehouse Management Systems	Pallet Controversy: Myths and Facts	
April Contributed Edit Deadline*: 3/11 Ad Deadline: 3/16	State of Material Handling Industry: NA 2010 Preview	AGVs	Pallets	Cubing & Weighing	Machine Guarding	Energy Management	Sensors		<ul style="list-style-type: none"> • Best Plants Conference/NED Solutions Hall, April 19-21, Cleveland • NA 2010, April 26-29, Cleveland • WERC, May 16-19, Anaheim
May Contributed Edit Deadline*: 4/13 Ad Deadline: 4/19	Quality Management	Buy vs. Lease Lift Trucks	RFID	AS/RS	Visual Factory/Facility	Site Selection	Human-Machine Interface		
June Contributed Edit Deadline*: 5/13 Ad Deadline: 5/18	Lift Truck Insider	Fleet Management	Barcodes	Automatic Truck Loading Equipment	Third-Party Logistics	Yard Management	Wireless Mobility	Advances in Lift Truck Alternative Power	
July Contributed Edit Deadline*: 6/11 Ad Deadline: 6/16	Managing the Lean Facility	Battery Management	Case Closures	Palletizers	Incentive Programs	Dock Equipment	Transportation Management Systems		
August Contributed Edit Deadline*: 7/16 Ad Deadline: 7/21	<ul style="list-style-type: none"> • MHM 2010 Buyers' Guide: A comprehensive print and online guide to material handling and logistics services. 	Burden Carriers	Containers	Modular Systems	Shop Floor Safety	Slotting Strategies	Picking Technologies		
September Contributed Edit Deadline*: 8/13 Ad Deadline: 8/18	Calculating ROI of Automation	Floor Sweepers	Unit Load Handling	Case & Tote Systems	Training	Maintenance, Repair & Operations	Inventory Optimization	Energy-efficient Conveyor Systems	Manufacturing & Design Midwest, September 28-30, Rosemont
October Contributed Edit Deadline*: 9/15 Ad Deadline: 9/20	Packaging Trends: Pack Expo 2010 Preview	Lift Truck Attachments	Printers/Labeling Systems	Robotics	Labor Management	Benchmarking	Unit Load Design		Pack Expo, October 31-November 3, Chicago
November Contributed Edit Deadline*: 10/15 Ad Deadline: 10/20	Best Practices in Data Collection	Fast Charging Batteries	HazMat Handling	Systems Integration	Ergonomics	Reverse Logistics	Voice Systems	The Versatility of AGVs	
December Contributed Edit Deadline*: 11/12 Ad Deadline: 11/17	What's New in 2011	Lift Truck Maintenance	Stretch Wrapping	Sortation	Managing Diversity	Storage & Racking	Supply Chain Management Systems		

In Every Issue

Powered Vehicles Lift trucks and other industrial vehicles, such as AGVs and burden carriers, are complex yet critical workhorses. In this section, we explore cutting-edge topics ranging from fuels and fuel cells to emissions control, maintenance management and more.

Transport Packaging Encompassing pallets, containers, pooling systems, printers and labeling equipment, automatic identification, RFID and more, transport packaging is an important piece of the supply chain puzzle, and we cover it every month.

Automation Whether leveraged with conveyors and sortation systems, AS/RS, voice technologies, robotics or countless other high-tech equipment, automation is an indispensable way to transform traditional material handling into the competitive weapon it is today.

Facilities Decisions that impact facilities—the four-wall foundations of the supply chain—drive dollars to the bottom line and boost productivity. We explore strategies like energy management, site selection, loading dock management, MRO (maintenance, repair and operations) activities and more each month.

Technology Vendors of warehouse management systems, computerized maintenance, sensors, supply chain technology and more enable the collection and analysis of information that leads to smart decisions. Our monthly Technology coverage helps our readers keep up with the fast pace of change.

Workforce There's no denying it: Material handling cannot exist without people. No other material handling publication delves into ergonomics, recruiting, retention, labor management systems, incentive programs, corporate social responsibility and other personnel concepts as deeply as MHM.

*Guidelines for Contributing Editorial:

Material Handling Management welcomes contributions from anyone to address issues and topics that affect our readers and the industry. These contributions can be submitted to *Material Handling Management* as bylined articles or as industry commentaries. Articles should address specific technologies or groups of products that can help to make the market more competitive, more profitable, more efficient, etc., and they should be accompanied by examples. (No sales pitches!) For more information, please see "Editorial Guidelines" within the MHM media kit at <http://mhmonline.com/advertise/>

New Products MHM offers a New Products section every month that showcases the latest material handling equipment and services. This allows our readers to stay up to date on new technologies and innovations that help them operate more productively and profitably.

Product Express Put the material handling market leader to work for you to advertise your products, services or job opportunities. Customize your ad by the inch to fit your marketing needs and budget.

News Beat Stay up to date with the industry's most comprehensive news coverage, offering compelling and practical updates on news that directly affects material handling and logistics managers.

Commentary Every month, MHM features cogent, insightful commentary and analysis focusing on the latest trends in material handling:

Front Line: Editor-in-Chief Mary Aichlmayr's thought-provoking and challenging editorials champion the business of material handling, urging readers to clarify their own positions and take a stand.

Inner Circle: Every issue, a high-level executive from the material handling community offers his or her vision of what the industry is doing right (or wrong), and what the future holds for manufacturing and distribution professionals.

Handle With Care: Editorial Director Dave Blanchard wraps up every issue with his pointed observations on leadership strategies, trade policy, supply chain management and best practices.

Note: Editorial subject to change without notice.
